

CELEBRATE YOUR LIFE. Protect your sight.

This year, as you celebrate another birthday, think about celebrating your sight.

African Americans are at higher risk for eye diseases and conditions at an earlier age. So, as you get older, make your eye health a priority. Get a comprehensive dilated eye exam.

Early detection and treatment can save your sight, so don't let another year go by. Make your birthday happy *and* healthy. Schedule an appointment to see your eye care professional.
